

Whole Child Approach

The whole child approach ensures that "each student is healthy, safe, engaged, supported, and challenged" and adopts an overarching goal of the long-term development and success of all children.

Ohio's strategic plan for education, "Each Child, Our Future," puts the whole child at the center, where each component of the plan works harmoniously to support a whole-child approach.

Our Mission

The mission of the Wellness Department is to empower our educational community to support the systemic implementation of the whole child approach for student success in life and learning.

The ESCLC Wellness Department will assist districts in strengthening their multi-tiered systems to provide whole child supports, including mental and behavioral health services to every child.
